

AVISTA BEACH VILLAS & RESORT

“Where Purpose Meets Profit – and
Every Token Builds a Better World.”

Presented by

The Trillium Exchange \$NRGT / OTC

■ OUR VISION

To lead a global movement that bridges sustainable tourism, real estate innovation, and digital finance.

Avista Beach Villas & Resort combines the stability of beachfront property with the accessibility of blockchain-based tokenization — empowering investors to own a share of paradise while fueling economic revitalization in one of Colombia's most naturally rich and culturally vibrant regions.

This is the future of purpose-driven investing: profitable, transparent, and transformative.

Tokenized in partnership with The Trillium Exchange (\$NRGT) — a publicly traded OTC company bringing transparency and institutional-grade standards to digital asset ownership.

THE OPPORTUNITY

Invest in a real, income-producing beachfront resort backed by the power of a publicly traded company.

Avista Beach Villas & Resort is being tokenized and offered through The Trillium Exchange (\$NRGT)—a public OTC company bringing institutional-level transparency to the \$10T RWA tokenization boom.

This is your chance to own fractional equity in a beachfront eco-resort, earn from tourism growth, access exclusive vacation benefits, and participate in a regulated, next-generation digital asset ecosystem.

5	16%	\$1,318	+7%	\$8,818	\$2,100	\$3,418

A \$7,000 Avista Investor package generates over \$16,000 in combined benefits within 5 years — through hybrid returns, token appreciation, and global vacation utility. A purpose-driven investment with real-world value and lifestyle rewards.

All projections are based on an estimated ADR of \$199, a 50% occupancy rate, and additional food, beverage, and service income equal to about 70% of room revenue. Estimated distributable profit is modeled at 60% of rental income and 25% of F&B/other income. These figures are illustrative only and actual results may vary. Vacation benefits depend on each member's personal use of the Avista Vacation Club and availability within the program.

EXIT STRATEGY – HOW TOKENHOLDERS CAN REALIZE VALUE

Multiple exits, real-world value. Tokenholders may realize returns through secondary market liquidity, potential resort buybacks, ongoing yield, future recapitalizations, or conversion events – all supported by the rapidly expanding global RWA investment market.

IMPACT STATEMENT

Avista Beach Villas & Resort rises in a breathtaking yet resilient region long overlooked and shaped by the shadows of armed conflict. Despite hardship, its people protected something priceless—rich gastronomy, music, folklore, and a cultural identity the world has yet to fully discover.

Avista marks a new beginning: a zero-impact development that proves growth can honor nature while generating qualified jobs, training, and real opportunity for families ready to rebuild their future.

Backed by a publicly traded company and the power of tokenized real-world assets, investment is finally reaching communities forgotten by traditional capital. Each token helps ignite innovation, restore hope, celebrate culture, and protect the land that has protected its people. Avista isn't just a resort—it is a catalyst for healing, uplift, and sustainable transformation.
